Universal Equipment Mounting Set for Outlets with 1 half shell

Technical Attributes	
Short name	Universal Equipment Mounting Set for installation of outlets AMJ45, UMJ45 in cable ducts for heights 47, 50, 52 and 55 mm and for top hat rails, C-rails, Combi-rails
Type	with 1 half shell

Performance Characteristics

- suitable for cable duct systems with C-rails, top-hat rails, and Combi-rails with 35 mm fixings
- variable height compensation for wiring ducts with internal heights of 47 mm, 50 mm, 52 mm, and 55 mm
- cable strain relief
- can be string-mounted, and therefore suitable for double, triple and multiple installations
- user-friendly installation and integration of the outlets
- suitable for horizontal and vertical installation
- small stock diversity
- optimal cable runs inside the cable ducts
- quick, screw-free installation due to snap-in latches
- reduced installation times
- external dimensions (in mm): width = 70; height: variable 47, 50, 52, and 55
