Therm-O-Disc Europe BV  
Königweg 16,  
NL-7602CX, Almelo  
The Netherlands

Dear Customer,

Therm-O-Disc will change E4 167C epoxy color from Light Green to Tiffany Blue. The appearance of TCO is shown in the below picture.

Epoxy color is meant to differentiate temperature rating and product series in the manufacturing process. All the above two colors can meet the E4 167C performance and won't affect agency approvals.

Please let us know if you have any questions or would like samples for evaluation. We appreciate your cooperation and business.

Best regards,

Therm-O-Disc Europe BV

**Therm-O-Disc™**
