Change details

Reason of change:	Change in structure of ownership at supplier
Description of change:	Our supplier is committed to continuous improvement in delivering products of the highest performance and quality. As part of this commitment, they are embarking on a necessary process change and supply chain realignment of our Conductive Materials. During 2021, they will move the manufacturing of these products from the current external toll blender to a supplier owned daughter company. They have thoroughly tested and qualified raw materials and processes from this new source, and we do not observe any performance or quality differences in our products.
Customer impact:	None
Affected documents:	N/A
