

ESD ELECTRONIC PLIERS BLACKLINE

The pliers in the BLACKline series are characterised by their dip-insulated slender grips. They benefit from a comfortable feel and the pliers do not slip when held. They give the feeling that you are working very close to the workpiece and allow you to control cutting in an optimal manner.

The slim heads are ideal for working on delicate components and feature a highly polished, corrosion-resistant surface.

The smooth, box-jointed or single-jointed construction (depending on the model) guarantees a long service life if cared for properly.

The pliers have been tested with great results in accordance with DIN EN 61340-5-1, 61340-2-1 and 61340-2-3 as well as for work in ESD protected areas.

The following types are available, specifications in mm:

Art.-No.	Short description	Type	Flush	Cutting values				Head width	Cutting length	Total length	Weight in g
				○	⊘	●	Ⓟ				
CUTTING PLIERS											
▶ 3-901-7	ESD side cutters	–	Semi flush	1.5	1.0	0.4	–	12	10	115	65
