2 Type of change

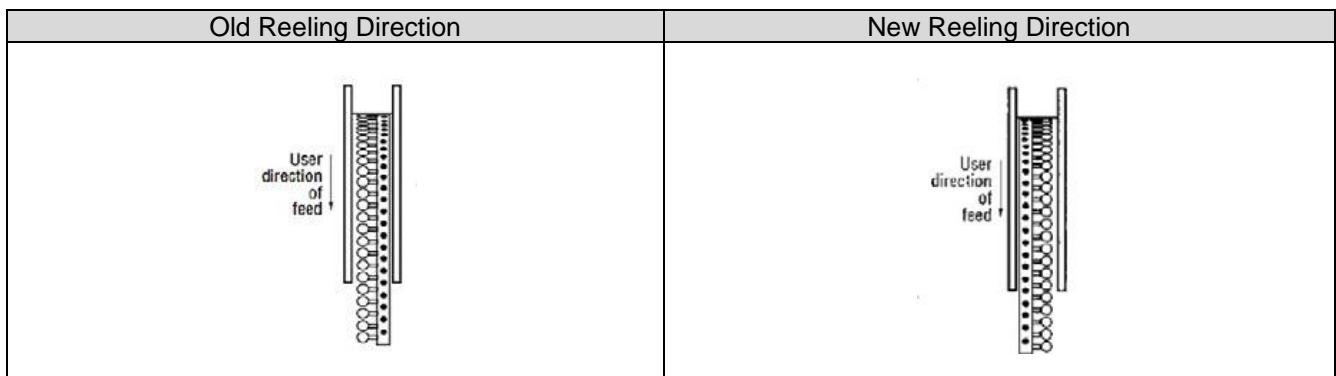

- Reduction in lead length scrap material for tape and reel packaging
- Change in reeling direction according to EIA-468

3 Detailed description of change

The total length of the leads will be shortened as shown in the example pictures below. The actual dimension changes will vary between models. Assuming the components are removed from the tape and reel packaging by cutting the leads at the tape edge, the form, fit and function of the components are not affected. There is no change in the mechanical, electrical or material properties, and the components' performance and agency recognition remains the same.

In the same step we take the chance to improve our conformity with EIA-468 by changing the reeling direction. If there are major production obstacles occurring due to this change, please get in contact with your local SCHURTER sales representative.

4 Reason of change

- Conformity with EIA-468 and scrap reduction.

Product Change Notification					PCN-Changes to Tape and Reel Packaging		
owner	creation date	release date	released by	change order no	rev	page	D10-032-807
schmidre	19.12.2018	19.12.2018	haeckima	2016867	A	1 of 2	

5 Release date

The change takes effect in 03/2019 (Date code 9065 and higher for 4 digit date codes and 9J or higher for 2 digit date codes). The stock produced prior to the change will be shipped until depleted.

6 Impact of change and recommended action

Form	No	No change in form
Fit	No	No change for dimension
Function	No	No change in function
Manufacturing	No	No change for manufacturing site
Label	No	No change on label
Packaging	Yes	Consider compatibility of this change with your production setup.
