Ordering Information

The diagram illustrates a square-wave current waveform. The horizontal axis is labeled "CURRENT" and the vertical axis is labeled "SWITCHING". The waveform starts at zero, rises to a peak value of 10A, and then drops back to zero. This pattern repeats. Two specific points on the waveform are highlighted: one where the current rises from zero to 10A, labeled "R : Random", and another where the current drops from 10A back to zero, labeled "Z : Zero cross".

Options: Suffix – P, 100% potted
