## Declaration of Conformity REACH and RoHS

Ladies and Gentlemen,

On June 1, 2007, Regulation (EC) No. 1907/2006 of the European Parliament and of the Council concerning the Registration, Evaluation, Authorization and Restriction of Chemicals (REACH) came into force. An essential goal of Bürklin GmbH & Co. KG is an environmentally compatible product design. Title IV of the REACH regulation regulates the flow of information within the supply chain. Article 33, which is anchored in this title, describes the obligation to pass on information about substances of very high concern (SVHC) on the candidate list (Art. 57 & 59 of the REACH Regulation) in articles. Any supplier of an article containing substances of very high concern of the candidate list above a threshold of 0.1% by weight per article shall provide the recipient with the information at his disposal, but at least with the name of the substance concerned.

Based on the current binding REACH candidate list (<https://echa.europa.eu/de/candidate-list-table>) and the supplier notifications we have received, we have analysed your product portfolio and listed the individual products in tabular form below. Please note that the chemical name of any SVHC (column "SVHC free = No") in our products are shown on the respective product-specific website (<https://www.buerklin.com/en/>). This information is continuously updated.

The European Directive "RoHS" 2011/65/EU on the restriction of the use of certain hazardous substances in electrical and electronic equipment including the two essential delegated RoHS Directives 2015/863/EU and 2017/2102 regulates the maximum concentration of certain chemical substances in finished electrical and electronic equipment as well as in spare parts and assembled cables. Exceptions to these restrictions for specific applications are listed in Annexes III and IV. Bürklin GmbH & Co. KG confirms that according to the information provided by our suppliers, our articles comply with the European Community Directive 2011/65/EU and 2015/863/EU. We have analysed their product portfolio and listed the individual products in a table below. Applied exemptions according to Annex III and IV is referred to the product specific website (<https://www.buerklin.com/en/>).

We look forward to continued successful cooperation.  
If you have any further questions, we will be very happy to assist you.

Kind regards  
Product Compliance & QM
